

Certificate Internship

This is to certify that

Albaraa Abo-Elftouh

has successfully attended a Service Training on:

Diagnostic Imaging

The training covered the following topics:

- Introduction to Diagnostic Imaging Systems
- Medical Equipment Basics
- Overview of Main Components of Each Equipment
- Basic Principles of Equipment Operation
- Practical Training and Onsite Visits with Service Engineers

The training was conducted from 30 August 2026 to 10 September 2026 at Siemens Healthineers S.A.E. – Customer Service Department.

We appreciate the trainee's active participation and commitment throughout the training program.
